Include your IPO Chart with your code in Eclipse IDE: We will discuss and demonstrate this in the computer lab.

IPO CHART

Program name:	[InvestmentTime]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
Nothing because the code just has a set amount of time to do in its calculations	[like the previous answer it just calculates how much time to make the set money]	[how many years it would take to make that amount of money]

IPO CHART

Program name:	[digitsdisplay]	
INPUT	PROCESS	OUTPUT
Hint: What will the user input?	Hint: What is the program going to do with the input information?	Hint: What will the screen display after user input?
The user inputs a integer	The program will look at the integers and then will place them in a line from top to bottom	[the screen outputs the integers in a line from top to bottom
